Front-End Web Developer

With 2 years of hands-on experience building dynamic, user-friendly web applications. Experience in modern front-end technologies, frameworks, and tools. Known for delivering high-quality results, strong problem-solving skills, and exceeding expectations in both technical and operational roles. Proven ability to thrive in collaborative environments and continuously improve.

Technical Skills

Programming Languages: HTML5, CSS, JavaScript, TypeScript

Frameworks & Libraries React, Next.js, Material-UI, Redux, Vue, TailwindCSS

Tools & Platforms: Git, GitHub, NPM, Yarn, Web Pack, Firebase, Supabase, Vercel, VS Code

Development Practices: API integration, Chrome DevTools, Git version control

Soft Skills: Customer service, Analytical and problem-solving, audio engineering

Professional Experience

MusicMilitia website commission *Music Militia* | Feb 2025

- Created a multi-page media application connected to the companies YouTube playlists using NextJS, Typescript and TailwindCss best practices ensuring code quality. Allowing for potential customers to fill in a form citing their interest in being featured on the channel thus increasing income from between 20% to 50%.
- Used a dark background with striking neon effect splashes of colour to create intrigue amongst people of all ages increasing engagement 3 fold.
- Content fully dynamic based on YouTube playlists to ensure minimum downtime and maintenance required
- Created mobile and responsiveness with tailwind css flex box and grid, ensuring consistent display.

Frontend Developer Intern *Frontend Simplified* | Jun 2024 – Oct 2024

- Developed responsive React frontend components for an NFT display platform via Firebase Authentication and Firestore database, serving 1000+ digital assets.
- Integrated RESTful APIs using Axios to retrieve NFT metadata and assets, achieving 95% successful request rate and sub-2 second load-times.
- Implemented user authentication system using Firebase Authentication, resulting in 300+ registered users and secure data management.
- Built and maintained 15+ reusable React components using JavaScript ES6+, Redux for state management and Material-UI for consistent styling.
- Deployed Firebase Cloud Functions To handle backend operations, reducing server response time by 25% for NFT metadata retrieval.
- Collaborated with 3-person development team using Git version control and Agile methodologies, completing 40+ JIRA tickets in a 3-month development cycle.

Windscreen Technician & Customer Service

AutoWindscreens | Jun 2022 – Aug 2024

- Awarded Employee of the Month multiple times for exceptional performance, increasing customer satisfaction and getting feedback from management for good reviews.
- Led and conducted solo windscreen repairs and replacements while using digital tools to streamline service requests and customer communication.
- Helped other team members with larger jobs decreasing fitting time and injury.

Logistics & Delivery Coordinator

Group Tyre | Apr 2022 – Jun 2022

- Handled customer payments via cash and cheque
- Deliver roughly 200-400 tyres daily.
- Ensured high customer satisfaction through effective communication and on-time deliveries.

Stock & Logistics Support

TLC Direct | Apr 2021 – Apr 2022

- Managed delivery logistics using routing software, optimising delivery schedules and communicating with customers to have an 98% successful delivery rate.
- Pick and wire cut stock for in store customers and deliveries
- Ensured professional customer service and timely deliveries, striving for customer satisfaction.

Projects (personal)

YouTube Clone: Developed using Vite.js & moment.js, integrated YouTube API, providing real-time video categories and playback with a fully responsive design.

Netflix Clone: Created with Next.js & React Toastify, featuring firebase authentication, real-time movie data, a trending content carousel, and responsive UI, improving user experience for seamless content discovery.

NFT Marketplace: Expanded an HTML app into a React-powered multi-page mock site, integrating API-driven NFT data and auction expiration timers via Axios, increasing user engagement through dynamic routing and AOS animations.

Twitter Clone: Next.js app with firebase authentication and real-time post updates, improving social interaction for users.

Movie Review Website: Built with React & Node.js. Features review submission, search, and editing.

Education & Certifications

Frontend Simplified – Frontend Developer Bootcamp (2022) Gain knowledge and practical skills in HTML, CSS, JavaScript, React, TypeScript, Node.js, Next.js, TailwindCSS, Redux, Firebase. Built responsive multi-page apps, implemented Git operations, hosted on Vercel & Heroku.

Additional Education

HABC Level 2 Award in Door Supervision (2014) - MIAL Level 1 & 2 in Vehicle Maintenance & Repair, ICT (2009)
- GCSEs in English, Mathematics, Science, etc. (2006)

Others

Hobbies include music audio engineering, gaming, pc building, sim racing.
